Nurturing Talent-At the Bottom of the Pyramid

ABOUT US

RAJALAKSHMI CHILDREN FOUNDATION

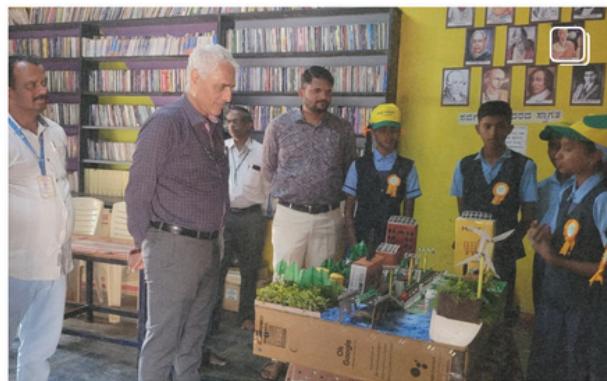

Rajalakshmi Children Foundation, established in early 2013, is a non-profit organization working for the health, education and overall development of underprivileged children. We are primarily working with government schools, where most of the children come from economically and socially disadvantaged families.

PRATIBHA POSHAK

Pratibha Poshak is a talent search-nurture project initiated by Rajalakshmi Children Foundation. We identify exceptionally talented young kids from severely underprivileged families, remote rural areas in India, to amplify their potential by connecting them in peer cohorts with creative teachers and caring mentors across the globe.

National Science Day - celebrated in India on February 28 each year to mark the discovery of the Raman effect by Indian physicist Sir C. V. Raman on 28 February 1928. For his discovery, Sir C.V. Raman was awarded the Nobel Prize in Physics in 1930. To commemorate this day , RCF Founder Dr.Shashikant Kulgod visited GHPs Kukkadoli. This 99 year old school is an apt indication of what few dedicated teachers ,Principal along with the supportive villagers can do. Dr.Kulgod was so impressed with the bold curious children with such great communication skills , that he invited them to come and select books of their choice for themselves from Sapna Book House.

TEACHER STORY

Shubham Ranasubhe is a Physics Lecturer in Maratha Mandal PUC Integrated Science College Belagavi, Karnataka. He comes from a family the SSLC exam was the highest exam any one had ever attempted/passed. But with his mentor's guidance and his dedication he scored 90 % in SSLC and 82% in PUC 2. He completed his M.Sc. from Christ University, Bengaluru and later obtained a B.Ed. Shubham is really good at visualising concepts of physics and it makes his job easy to teach students with practical examples. He is an avid reader, and is a good Kabaddi player. The challenges he faced as a Kannada medium student when he went to college, makes him empathetic to our students and blessed him with counselling skills. He is very much impressed with the Pratibha Poshak scholars and loves to engage science classes for them.

He enjoys these sessions and says “, Whatever I am today, is because somebody in my life mentored me personally when I needed it the most and this is what has made me grow.” Shubham’s classes are interactive and students love his unique teaching style. RCF is grateful to have Shubam on board as a teacher.

STUDENT STORY

Prutvishree Pujar Is a Pratibha Poshak scholar studying at GES High School in Gokak. Currently in the 10th grade. She lives with her parents and an elder sister who is studying for an MSc in Criminology and Forensic Science at Karnataka University. She has an excellent command over the English language and is fascinated with foreign languages too. Prior to her joining Pratibha Poshak, she felt Math was a tough subject. She praised Dr. Ravindra and Dr.Kirti for guiding her. She says the way Pratibha Poshak teaches subjects is very unique and the teachers give real-life examples which makes it easy for the students to understand the concepts.

She aspires to crack the NEET and serve the country. She has a philanthropic bent of mind and in the future, she is eager to make changes in people's lives with by providing quality education to the needy.

UDDEEPAN

The “UDDEEPAN” (ILLUMINE) series provides informative and engaging series of lectures and workshops. The objective is to orient the our students, youth, our staff, teachers, mentors, enablers and well-wishers, in short - anyone who is interested to gain new insights from prolific experts. This one-hour E-session will be held on the last Sunday of the month.

During the opening session of UDDEEPAN, Lt. Commander Subbaiah graced the event as a guest speaker. He provided insights into the operations of the Indian Navy and offered guidance on how students can build a career within the Indian Navy.

CLICK TO JOIN

During the second UDDEEPAN event, Mrs. Bharathi Rao was invited as a guest speaker. She engaged with the Pratibha Posak scholars on the topic of “Why Knowledge is Power?” and enriched the session by sharing some of her most impactful life experiences with the students.

Rajalakshmi Children Foundation

Activities Report

In the last week of February, Dr. Shashikant Kulgod, the founder of RCF, visited the Government Kannada Higher Primary School (GKPS) in Kukkadoli to celebrate National Science Day. He was deeply impressed by the bold and curious children who exhibited great communication skills. Dr. Kulgod invited the students from GKPS Kukkadoli to visit Sapna Book House and select books of their choice. This gesture was a testament to his commitment to fostering a love for learning among the students. In addition to this, the children also had the opportunity to meet Sudha Murty and participate in the "Manada Mathu" event. This experience was undoubtedly enriching and memorable for the young minds.

OUR SOCIAL MEDIA LINKS

Would you like to be a part of a movement that provides every child with the opportunity to excel? You can join us as a teacher, mentor, volunteer, or intern at Pratibha Poshak and lend a helping hand in nurturing under-resourced children to help them achieve their goals. Donations to RCF are tax-exempted under Section 80G.
